

# COMPRESSION LEASING SERVICES

PROVIDING THE WORLD WITH HIGH PRESSURE BOOSTERS & COMPRESSORS

[www.compressionleasing.com](http://www.compressionleasing.com) | 855.355.3242   

## Signature Series Elite Booster

- **ENGINE:** CUMMINS QSX-15 600HP INLINE 6-CYLINDER, TURBO CHARGED, TIER 3 FLEX DIESEL (RIG SAFE AIR INLET/OVER SPEED SHUTDOWN).
- **EXHAUST MUFFLER:** CRITICAL GRADE SPARK ARRESTING, SAFETY INSULATED TURBO, MANIFOLD, PIPE AND MUFFLER.
- **CONTROL PANEL:** OFFSHORE SEALED/316 STAINLESS STEEL BY CLS, WITH THROTTLE CONTROL, AND COMPLETE ENGINE AND COMPRESSOR SYSTEMS INCLUDES ROSEMONT PRESSURE AND DIAGNOSTIC MONITORING, WITH PROTECTIVE SAFETY SHUTDOWNS.
- **STARTER:** AIR AND ELECTRIC AS STANDARD.
- **FUEL TANK:** 30 GALLON ASME CODE FUEL CELL DESIGNED TO BE QUICK COUPLED TO LARGE FUEL TANK OR RIG TANK FUEL SOURCE.
- **GEAR REDUCTION:** COTTA 3:1 REDUCTION CASE.
- **COUPLING:** DIRECT DRIVE WITHOUT CLUTCH.
- **COMPRESSOR:** GARDNER-DENVER JY500/WB-12.
- **1ST STAGE COMPRESSOR CYLINDER:** GARDNER-DENVER 6" BORE 1700 PSI MAWP 7" STROKE (CYLINDER HYDRO TESTED TO 2550 PSI).
- **2ND STAGE COMPRESSOR CYLINDER:** CLS 3.75" BORE 3200 PSI MAWP 7" STROKE (CYLINDER HYDRO-TESTED TO 4800 PSI).
- **VESSELS:** ALL ASME CODE CERTIFIED BY CLS ONE FOR EACH STAGE OF COMPRESSION.
- **COOLER:** FIN-X ASME CODE CERTIFIED INTERCOOLER AND AFTERCOOLER WITH STAINLESS-STEEL TUBES AND ANTISTATIC FAN AND BELTS AND MANUAL LOUVERS FOR TEMPERATURE CONTROL.

- **SKID:** CLS-CERTIFIED AND TESTED SKID WITH LIFTING FRAME, INCLUDES GALVANIZED ROOF GRATING, SKID HAS TAIL ROLLS ON BOTH ENDS AND 4-POINT LIFT LUGS WITH SEAL WELDING FOR FULL OIL/SPILL CONTAINMENT WITH CORNER DRAINS.
- **PIPING:** MADE BY CERTIFIED WELDERS TO B31.3 SPECIFICATIONS AND 100% HYDRO-TESTED AND X-RAY ON ALL PIPING WELDS.
- **VALVES:** HEAVY DUTY FULL PORT BALL VALVES WITH COMPLETE UNIT BYPASS WITHOUT REMOVAL OF DISCHARGE HOSES/PIPING.
- **RELIEF VALVES:** CERTIFIED AND TAGGED WITH CERTIFICATION PAPERS FOR PROPER PRESSURE FOR EACH STAGE.
- **PAINT:** CLS - DIAMOND VOGEL OFFSHORE ZINC COATING 3-PART SYSTEM.
- **BATTERY BOX:** INTEGRATED INTO SKID WITH TWO 8-D MAINTENANCE FREE BATTERIES WITH BATTERY SHUTOFF SWITCH.
- **WEIGHT:** 36,900 LBS./16737.6 KG
- **LENGTH:** 23' 9 1/2"
- **WIDTH:** 8'6"
- **HEIGHT:** 8'6"
- **COOLER RATINGS:** INTERCOOLER: 1900 PSIG  
AFTERCOOLER: 3170 PSIG
- **VESSEL RATINGS:** V-101 1ST STAGE INLET SCRUBBER: 500 PSIG  
V-102 1ST STAGE DISCHARGE BOTTLE: 1900  
V-201 2ND STAGE INLET SCRUBBER: 1900  
V-202 2ND STAGE DISCHARGE BOTTLE: 3170

**USE APPLICATIONS:** PIPELINE PRESSURE TESTING WITH AIR/NITROGEN/NATURAL GAS, PIPELINE DEWATERING, PIPELINE COMMISSIONING, PIGGING AND CLEANING, PIPELINE GAS TRANSFER/EVACUATION, AIR DRILLING, UNDERBALANCED/CONTROLLED PRESSURE DRILLING, NITROGEN BOOSTING, AERATED MUD/FOAM/ AND MIST DRILLING, ON AND OFFSHORE AND DEEPWATER AND DOWN HOLE CONSTRUCTION AND TESTING, PIPE PRESSURE TESTING. ANYWHERE WHERE AIR/NITROGEN/GAS PRESSURE NEEDS TO BE BOOSTER FROM PRIMARY COMPRESSORS OR PRESSURIZED SOURCES.

MADE IN THE USA , MADE WITH 98.7% USA MADE CONTENT BY DOLLAR VOLUME.

**Flow in Single-Stage mode: Capacities up to 3420 CFM to 900 PSI, From suction pressure of 325 PSI**

Conditions: 100 F Ambient, 125F Suction Temps Each Stage					
Altitude 5000 feet ASL					
Suction Pressure	Discharge Pressure	Flow in SCFM	Compressor HP	Total HP	1rst Stage Discharge Temp
325	500	3922	178	248	221
325	600	3787	231	301	257
325	700	3659	275	345	288
325	800	3537	311	381	317
325	900	3420	342	412	344

**Flow in Two- Stage mode : Capacities up to 2508 CFM to 2500 PSI, From suction pressure of 325 PSI**

Conditions: 100 F Ambient, 125F Suction Temps Each Stage						
Altitude 50 feet ASL						
Suction Pressure	Discharge Pressure	Flow in SCFM	Compressor HP	Total HP	1rst Stage Discharge Temp	2nd Stage Discharge Temp
100	800	829	169	239	346	332
125	1000	1018	206	276	347	336
150	1150	1204	239	309	346	332
175	1350	1388	277	347	347	336

# COMPRESSION LEASING SERVICES

PROVIDING THE WORLD WITH HIGH PRESSURE BOOSTERS & COMPRESSORS

In 1998, Ben and Daron Gruner set out to reinvent the family's compressor business. Compression Leasing Services, Inc.(CLS) began by manufacturing unique and specialized compressors, and other oilfield and construction equipment one at a time. We quickly realized that there was a unique place in the compressor market that greatly needed more attention. This very small business grew rapidly because of superior quality, innovative products, customer focus, and superior customer service. Today, CLS is the World Leader in the manufacturing, sales, and rentals of High Pressure Booster Compressors and Rotary Screw Compressor Products, with compressors sold in at least 15 different countries worldwide.

Our manufacturing facilities in Casper, Wyoming house some of the most state of the art manufacturing equipment and processes used in the compressor fabrication business. Our team of quality Engineers, Draftsmen, Welders, Assembly Personnel, and Sales and Service people, make sure that our customers will have a positive and profitable experience when using our products to accomplish their tasks.

**WE ARE PROUD TO INTRODUCE OUR SIGNATURE SERIES ELITE BOOSTER.**

The Booster Compressor Units are available Standard with Tier 3 Flex Cummins engines, CLS has an option for Tier 4-Final Cummins Engines as well. Caterpillar engine options are available upon request, please ask for differences in pricing and weight for other engine options. Units are also available in many different cylinder sizes and pressure ratings per customer request.

CLS-manufacturers/ builds/assembles the entire unit including the skid, vessels and packages everything in house. No third party manufacturers are used to assemble this booster compressor. This process ensures quality control throughout the entire package.

Proven design with 33-Year trusted Quality track record in the compressor industry.

## AVAILABLE FOR RENTAL, LEASE OR SALE.

**MAIN LOCATION**

1935 N. Loop Avenue & 1925 N. Loop Ave.  
Casper, Wyoming 82601
