Always air. Always there.®

Robust and Portable Air Compressor

By combining superior technology and intuitive design, the new 185 portable will offer customers greater efficiency, without compromising performance. Through enhanced reliability and improved serviceability, the new 185 portable is built to last, setting a whole new benchmark for portable compressors in its class.

The 185 Portable also offers unique features such as:

- Australian compliant protective guards and heat shields
- Dedicated after cooler with moisture separator
- 142L containment capacity (126% of total fluid volume)
- 19% greater fuel efficiency than its predecessor

185 Portable Compressor

**Efficient, reliable and
easily serviceable**
